

PALIGEN

TECHNOLOGIES™

ABOUT PALIGEN TECHNOLOGIES

Paligen Technologies, Inc. is a systems integrator and technology OEM for aerospace and defense products, and a turn-key solutions provider of cutting-edge chemical research and development, engineering designs, and production facilities. Paligen's network of defense industry partners and robust offering of capabilities deliver innovative advancement and adaptation of modern processing technologies.

OUR VISION

To transform industry through innovation in manufacturing and engineering solutions.

OUR MISSION

Provide superior technology and product solutions to our customers.

PALIGEN™
AEROSPACE & DEFENSE

CAPABILITIES

- Aerospace & Defense Design & Engineering
- Design/Build Services for Advanced Defense Production Lines
- Air-Delivered Ordnance
- Defense & Commercial Aerospace Forged Components
- Medium Caliber Ammunition
- Program Management
- Systems Contracting & Integration
- Innovative & Adaptable Technologies

PALIGEN™
CHEMICAL

CAPABILITIES

- Energetic Materials Plant Design & Construction Program Management
- Chemical Facility Operations
- Facility Commissioning
- Industrial Chemical & Support Operations
- Explosive Materials & Mixtures
- Castable & Moldable Materials
- Research & Development
- Integrated Design/Build Solutions
- Advanced Technologies & Modernized Practices

McCORMICK™
STEVENSON
A PALIGEN TECHNOLOGIES COMPANY

CAPABILITIES

- Weapons, Ammunition, & Energetics
- Missile Components & Launchers
- Ordnance & Materiel Handling
